innovations driven by the needs of investors and borrowers the recent financial crisis offered painful lessons on the consequences of ignoring the risks associated with new financial products and strategies this substantially revised fifth edition of a widely used text covers financial product innovation with a new emphasis on risk management and regulatory reform chapters from the previous edition have been updated and new chapters cover material that reflects recent developments in financial markets the book begins with an introduction to financial markets offering a new chapter that provides an overview of risk including the key elements of financial risk management and the identification and quantification of risk the book then covers market participants including a new chapter on collective investment products managed by asset management firms the basics of cash and derivatives markets with new coverage of financial derivatives and securitization theories of risk and return with a new chapter on return distributions and risk measures the structure of interest rates and the pricing of debt obligations equity markets debt markets including chapters on money market instruments municipal securities and credit sensitive securitized products and advanced coverage of derivative markets each chapter ends with a review of key points and questions based on the material covered

climate change is one of the greatest challenges facing human kind owing to the great uncertainty regarding future impacts which affect all regions and many ecosystems many publications deal with economic issues relating to mitigation policies but the economics of adaptation to climate change has received comparatively little attention however this area is critical and a central pillar of any adaptation strategy or plan and is the economic dimension which therefore merits the increase in attention it is receiving this book deals with the difficulties that face the economics of adaptation critical issues include uncertainty baselines reversibility flexibility and adaptive management

distributional impacts discount rates and time horizons mixing monetary and non monetary evaluations and limits to the use of cost benefit analysis economy wide impacts and cross sectoral linkages all of these are addressed in the book from the perspective of economics of adaptation other dimensions of adaptation are also included such as the role of low and middle income countries technology and the impacts of extreme events this timely book will prove essential reading for international researchers and policy makers in the fields of natural resources environmental economics and climate change

this timely book explores the measurement and consequences of financialisation as well as its driving forces to take a fresh look at reconciling the twin concepts of financialisation and financial development imad moosa provides a critical review of these two separate strands the individual measures of economic development and financialisation on the grounds that they are inadequate to represent a multi dimensional process

the book deals with the urgent need for the eu to position itself globally in the wake of brexit a rapidly worsening climate crisis the covid 19 pandemic an aggressive russia and an ever more assertive china after 60 years of intensive navel gazing that focused on institutional design more than world politics the eu is now forced to defend its liberal democratic values which have come under attack from inside and outside the european integration project moreover realpolitik is back on the agenda europe s content negligence of defense matters in the past few decades has been revealed by russia s war of aggression against ukraine

this report assesses how to finance an extensive overhaul of transport infrastructure in the bimstec subregion considers the challenges of public and private financing and

outlines how to create an overarching financial framework underscoring why strong transport connectivity is critical to regional integration the report highlights how economic and financial analyses can help fund key economic corridors and transport projects in bangladesh bhutan india myanmar nepal sri lanka and thailand it analyzes a plan for over 200 projects and sets out ways to boost public private partnerships develop capital markets and establish a regional fund to help close the financing gap

this book presents a comprehensive and up to date overview of stock markets financial systems and their regulatory environment tailored specifically for students of commerce finance and business studies it is structured into five systematic modules beginning with the evolution of stock exchanges and the transformation of trading mechanisms in india including dematerialisation and the rise of digital platforms the subsequent modules offer a thorough understanding of financial markets their instruments infrastructure and market participants supported by clear explanations and real world relevance stock market operations are examined in detail with a focus on trading mechanisms equity and debt instruments derivatives and the significance of speculation and hedging the book also explores commodity markets both agricultural and non agricultural highlighting major exchanges trading procedures and price discovery mechanisms further it emphasises the role of regulation through an in depth discussion on sebi investor protection measures surveillance systems and recent regulatory developments including esg disclosure requirements and ipo reforms designed to enhance conceptual clarity and practical understanding each module is supported by review questions and references this text serves as a valuable academic resource for learners educators and aspiring market professionals seeking foundational and applied knowledge of modern financial markets in india
